

# 9-10955

## T-piece test sampling point assembly

### Description

---

The 9-10955 is a test port capillary sampling point for use in-line of the air sampling pipe. It is supplied complete with a 27 mm diameter T-piece, to which the flexible sample pipe connects. The flexible sampling pipe has a diameter of 10mm and is 1m long. At the end of the flexible sampling pipe, the test port is connected which can be opened as required to test the system, and measure the transport time.
