

## 2 & 4 Core Pink Speaker Cable

### Mechanical & Electrical Characteristics

Construction:	Inner Conductor:	Plain Annealed Copper
	Dielectric:	LSZH Insulation
	Sheath:	LSZH
Conductor Diameter:		From 1.50 to 2.50mm <sup>2</sup>
Sheath Diameter:		2 Core 6.70 ± 0.30mm 4 Core 7.80 ± 0.30mm
Storage/Operating Temperature:		-15°C to +70°C
Minimum Installation Temperature:		-5°C
Core Colour 2 Core:		Red, White
Core Colours 4 Core:		Red, White, Black, Green
Sheath Colours:		Pink

\*Cable image and colours are for illustration purposes only and may vary.

### Application

Speaker cable for audio connections between loudspeakers and audio amplifiers.

### Specifications

**CPR Class: E**

### Electrical Characteristics

DC Resistance Inner Conductor @ 20°C:

1.50mm <sup>2</sup>	≤ 13.3 Ω/km @ 20°C
2.50mm <sup>2</sup>	≤ 7.98 Ω/km @ 20°C

Capacitance:	Up to 68.9pF/m (nominal)
Inductance:	Up to 0.00126mH/m
Operating Voltage:	50V
