The screenshot shows the KD Electronics website dashboard. At the top, there is a navigation bar with links for 'About Us', 'Contact Us', 'Dashboard', 'Order History', and 'Quick Order'. Below this is a search bar with the text 'What are you looking for?' and a search icon. To the right of the search bar are icons for 'Software Support Downloads', 'My Account', and 'My Cart' (showing 2 items for €198.99). Below the navigation bar is a menu with links for 'Products', 'Special Offers', 'Our catalogue 2022', 'Channel Lists', 'Tutorials & Guides', and 'News'. The main content area is titled 'Dashboard' and contains a table with account information:

Company Name	K008 - KD Electronics Marketing
Credit Limit	€ 500.00
Credit Balance	€ 0.00
	<a href="#">Pay off Balance</a>
Address	Unit 4 Metro Business Park Ballycurren Co. Cork T12 HP60
Contact Number	0214316066
Contact E-mail	marketing@kdelectronics.ie

At the bottom right of the dashboard, there is a 'Logout' button. A search bar with the URL 'https://www.kdelectronics.ie/' and a search icon is overlaid on the right side of the dashboard.

## CCTV - ACCESS CONTROL - VIDEO INTERCOM - DISPLAY - ALARM

KD Electronics has solidified its position as Ireland's premier and most rapidly expanding distributor of Dahua products. We maintain a larger inventory compared to any other distributor in Ireland.

Dahua Technology stands as a global leader in video-centric smart IoT solutions and services. Through continuous technological advancements, Dahua offers a wide range of products and services, including security cameras, video management systems, access control systems, intercoms, and other related security and surveillance equipment.

Their solutions are designed to enhance security, safety, and operational efficiency across various sectors, such as public safety, commercial enterprises, transportation, education, and more.

## AI MONITORING

Camect is a Silicon Valley company creating the simplest and most useful security solutions from ordinary camera installations in homes and businesses. At Camect, ex-Googlers, computer scientists, and security industry veterans work together to redefine the security camera experience.

Camect is a smart surveillance hub that add deep-learning AI to your existing camera system and raise alerts for the "interesting" events you previously configured.

It completely eliminates false alerts from bugs, animals, leaves, rain, shadows, etc. This technology is fully contained within affordable on-site hardware, and yet is significantly more accurate than more expensive products that rely on cloud-hosted analytics. A Camect security system will not eat up bandwidth, records continuously, and works even when the internet is down.

## CCTV

i-PRO (Panasonic) is one of the CCTV brands offered by KD Electronics. KD has been appointed as the only "Platinum" Distributor in Ireland.

i-PRO is a Japanese global leader in advanced sensing technologies in the fields of Intelligent Surveillance, Public Safety, and Industrial/Medical Imaging. Established in 2019, i-PRO was built on a legacy of over 60 years of innovation with Panasonic.

i-PRO is headquartered in Amsterdam, Netherlands, with the logistics hub conveniently located in Rotterdam to enable short delivery times and consistent availability.

## FIRE ALARM

KD have partnered with Eurotech to bring their product range to Ireland.

Eurotech specialise in the design, development, supply and commissioning of fire detection systems. They export to 36 countries their range of industry leading systems that suit every requirement – from the world's only certified touch screen panel to wired, wireless and hybrid systems and all specialised equipment required. Eurotech take pride in their post-sales support, efficiency and reliability when it comes to helping you with your fire system needs.

Eurotech are not only a Fire Alarm manufacture but also a supplier of other well-known fire brands including:

## ACCESS CONTROL

Suprema is a leading global provider of access control, time & attendance and biometrics solutions. By combining world renowned biometric algorithms with superior engineering, Suprema has introduced innovations to the security industry over the last decades. Suprema's extensive range of portfolio includes biometric access control systems, time & attendance solutions, fingerprint live scanners, mobile authentication solutions and embedded fingerprint modules. Suprema is named the world's top 50 security manufacturers and has a worldwide sales network in over 140 countries with no.1 market share in biometric access control in EMEA region.

## CCTV CONNECTIVITY

Netcelero, founded in 2014, is a trusted provider of secure agile connectivity solutions for CCTV monitoring.

The i-spi by Netcelero transforms any internet connection, even just a standard 4G/5G SIM, into a secure communications path from on-site cameras or NVR to any ARC. No firewall rules need to be changed. No router modifications. Just plug and play and carry on with your day!

System integrators say the i-spi has saved them hours, even days, on-site by eliminating the need for IT assistance. With its plug-and-play setup, they can complete their work quickly, while remote ARCs securely connect through i-spi to finalize site commissioning.

## ACCESS CONTROL ACCESSORIES

Security Trade Products hold an extensive range of access control accessories:

- Electro-magnetic locks (maglocks)
- Maglock accessories
- Exit buttons
- Green breakglass units
- Solenoid bolts
- Electric releases/strikes
- Keypads
- Proximity card readers
- Card, fobs
- Etc.

## GATE AUTOMATION

In 2020, KD Electronics became an authorised DEA distributor. We stock and deliver across Ireland, automations for residential, collective and industrial gates.

DEA Gate Automation is dedicated to manufacturing products and systems that automate buildings and public spaces. These solutions are designed for seamless and intelligent interaction with both professionals and end users.

Founded in Italy back in 1993, DEA embarked on its journey with an international vision. Nearly three decades ago, they embarked on a journey to export their innovations and principles, ultimately establishing themselves as a highly esteemed and internationally recognized company renowned for the quality of their automation products.

## FORMRACK

### DATA CABINETS

FORMRACK was founded in 1997 and since then, the manufacturer has become a powerful player within the cabinet market.

Ensuring the security of your network and data is essential, and cabinets play a vital role in safeguarding the hardware upon which your network relies.

Their range of cabinets comes in different sizes and mounting. They can safely store recorders, switches, encoders, servers, ups units, etc.

At KD, we stock 19" wall mounted cabinets, 19" free standing cabinets, server cabinets, outdoor cabinet and accessories to meet the needs of your CCTV projects, cable management, and data storage requirements.

### NETWORKING

Ubiquiti Inc is a wireless and wireline network equipment provider for Businesses, Smart Homes, and Internet Service Providers.

Ubiquiti offers access points, routers, switches, controller appliances, etc. All the equipment needed for safe security camera and alarm systems.

UniFi is Ubiquiti's line that exists somewhere between professional and affordable home networking gear. It's in the middle ground, offering more flexibility and features than most consumer-grade brands.

### NETWORKING

A new company brought to life by leading network pioneers and reimagined for the next generation of networking technology.

Backed by over 24 years of manufacturing experience from SVT - Alta Labs is new - but the people behind the brand have extensive experience in the industry. Alta Labs' goal is to elevate the world's network experience with leading-edge products and software - all guided by real professionals.

Alta Labs provides an intuitive and easy-to-use cloud based management interface for Alta Labs access points and switches.

Alta Labs is designing, engineering, and manufacturing a complete portfolio of enterprise-grade network solutions.

### NETWORKING

Gigawave WiFi provide competitive and affordable wireless network devices and solutions for businesses and homes.

They offer fast and reliable Wi-Fi and PTP/PTMP network devices that are capable of high speed wireless transmission with an extremely easy to use interface.

Their range of products includes:

- Indoor wireless access points
- Outdoor wireless access points
- 4G Routers
- Long-range Wi-Fi bridges
- PoE Switches.
